📍 Pau, France

SUMMARY

Shortly after earning my master's degree, I joined a startup in Canada as part of a two-year program. Eight years later, strengthened by extensive international professional experience, I have chosen to return to France to pursue my personal and professional goals, with the ambition of working for an international and impactful company.

EXPERIENCES

Bell Mobility - Canada

2021 - 2025

Full-Stack developer - IoT platform - Azure cloud

- Implemented a serverless data ingestion solution and migrated systems to a unified platform
- Developed a new Azure Synapse pipeline to calculate GHG emissions
- Redesigned and improved a geolocation solution based on Azure Synapse
- Successfully onboarded 2,000 new assets within weeks thanks to the platform's maturity and robust design
- Actively contributed to E2E testing by developing asynchronous keyword for Robot Framework
- Created Devcontainers for faster onboarding on projects
- Collaborated within a Scrum team using trunk-based development and automated deployments

Pilot Things - Canada

2017 - 2021

Tech Lead - IoT platform - AWS Cloud

- Designed and developed an all-in-one IoT platform for businesses and public authorities
- Analyzed and improved query performance
- Implemented a solution to reduce the risk of COVID-19 transmission based on the Pilot-Things platform
- Deployed a new multi-tenant solution based on AWS Cognito and the OIDC standard
- Deployed a serverless application available on AWS Marketplace

Sopra Steria - France

2015 - 2017

Software Development Apprenticeship - Master's degree

- Development of a non-conformity management solution for an Airbus subcontractor in ABAP on SAP
- SAPUI5 training

EDUCATION

2015 - 2017 Master's Degree ICE

Jean-Jaurès University, Toulouse, France

2013 - 2015 Bachelor's degree in Computer Science

Paul Sabatier University, Toulouse, France

LANGUAGES

- French (Native)
- English (Fluent, C1)

SKILLS

Java

JavaScript

Python

Spring boot

TypeScript
